

THE DYNAPLAS COMMITMENT

Dynaplas Pty. Ltd. was established by John and Lynne Mackay in 1978 as one of the pioneer companies in the Australian 'Rotational Moulding' industry.

Our successful 'DYNAGUARD' Polyethylene Truck Mudguard was developed in 1980 in response to the need for an Australian designed and manufactured product that would provide improved features and life, compared with the unsuitable imported European products of that time.

Since its inception, the 'DYNAGUARD' range of truck mudguards and associated products has set the industry standard for both plastic and metal mudguards, and has grown to capture more than 50% of the Australian market.

Multi national transport fleets, Shell, Mobil, TNT, as well as Australian companies Finemores, Boral, Linfox and the Australian Armed Forces are 'DYNAGUARD' equipped.

'DYNAGUARD' products are being fitted at the OEM level by International, Kenworth, Mack, Mercedes Benz, Scania, Volvo, etc.

Dynaplas has an ongoing program of product development to introduce new products to the transport industry that provide improved safety, are more cost effective, exhibit excellent service life and aesthetically suit today's transport equipment.

Dynaplas manufactures many other products for use outside the trucking industry:

- Bins for Macdonald's Family Restaurants
- Toilets for use on building sites
- Fishing Live Bait Tanks and Burley Buckets
- Marinas and Floating Platforms for boating and industry
- Lids for commercial refuse containers
- Fuel tanks for dirt track racing sprint cars
- Water tanks for industrial and residential use

Dynaplas is committed to "Excellence" in service and customer satisfaction. We believe in providing superior products, competitively priced and shipped on time, every time.

Our personnel are authorised and required to make the decisions necessary to ensure customer satisfaction.

I personally stand behind the **DYNAPLAS COMMITMENT TO EXCELLENCE.**

If our organisation ever fails to provide this level of support, please contact me. I personally handle every customer issue brought to my attention.

John Mackay
